## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 8, 11, 13 and 14 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. A further review of the specification during the consideration to declare an interference has found that some of the claimed recitations are not supported in the specification to which applicant has used as the basis for the filing date. It is first noted that the check valve downstream of the diffuser portion (claims 8, 11 and 14) is not disclosed as part of the invention. The check valve, however, is disclosed in the prior art Figure 1. Secondly, the method claim 13 has no antecedent basis from the specification, specifically the steps of “flowing the compressed gas of density less than a density of reservoir fluids into the annulus” and “mixing gas ejected from the outlet portion of the gas lift valve with reservoir fluids in the tubing.”

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In line 11 of claim 7, "said diffuser first end" and "said diffuser second end" lack antecedent basis.

***Allowable Subject Matter***

3. Claims 4-6, 10 and 12 are allowed.

Claims 7 and 9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
